Play Structure

Your groups item will need to have a written component to show the structure of your performance piece.

Below is a template of how your performance should be structured.

Complete the table and start to write a short script with your group (aiming at only 4-5 mins performance time.)

Make sure everyone has a part in your piece and also has a say over what the performance should look like as a final product.

Characters

Setting (World of your character)

Problem (What happens to throw your character's world out of balance?)

Struggle (Your character struggles to restore order to their world.)

So Close... (Your character is about to restore order, something happens to complicate matters.)

Succeed or Fail (Your character either succeeds or fails in his attempt to restore order.)
